DE VALERA RESIGNS AS PRESIDENT OF REPUBLIC

Deaths Exceed Births Says Report of County Physician

INTERESTING DATA
IS BROUGHT FORTH
IN RECORD FOR 1921

The annual report of Dr. C. J. Richards, physician and health officer for Nye county, for 1921, was submitted today, and shows that during the past 12 months there was an excess of deaths over births throughout the county. There were 69 deaths from all causes, pulmonary tuberculosis taking first place with a total of 16. Accidental deaths followed in order with 14. Of the 67 births reported, 39 were girls and 28 were boys, the starkly evident realization of the preponderance of bacillifers in a mining community.

During the month of December the figures for births and deaths were the same, nine being the total in each case. The fire at the Belmont boarding house was responsible for one-third of the total deaths during the month.

The detailed report of Dr. Richards both for the year and last month of the year follows:

Report for Year 1921.

During the year 1921 there were 67 births and 69 deaths. Of the 67 births, 39 were girls and 28 boys. The chief causes of death were: Pulmonary Tuberculosis 16, Accidents, Mine, Fire, etc. 14, Cancer 7, Pneumonia 6, Heart Disease 6, Criminal Abortion 2, Bright's Disease 2, Homicide 2, Suicide 2, Other Causes 12.

Report for December.

There were nine births and nine deaths recorded in December. The deaths were: John Boyovich, from pulmonary tuberculosis; Paul Fisher, died on the desert near Royston from exposure; Harry H. Hudson, pulmonary tuberculosis; Mary Ong, inflammation of bowels; William Fochyew, cancer; Sophie Hooper, of Round Mountain, sarcoma; Joseph Claussen, Fred Johnson and N. Angosta, burned in "Big Ship" fire.

The births follow:
Sons to Mr. and Mrs. Jorgen C. Johnson, Mr. and Mrs. George L. Barnett, Mr. and Mrs. Edwin Harper, Mr. and Mrs. John Kolak, Mr. and Mrs. Lawrence E. Glass, all of Tonopah.

Daughters to Mr. and Mrs. Richard N. Flinn, Mr. and Mrs. Harry J. Clemmer, of Tonopah; Mr. and Mrs. Charles Labbe of Johnson, Mr. and Mrs. E. Walter of Belmont.

C. J. RICHARDS,
Registrar of Births and Deaths.

ANOTHER ONE
OF PICKFORDS
TO BE BRIDE

(By Associated Press)
LOS ANGELES, Cal., Jan. 6.—Lotie Pickford, movie actress, and sister of Mary Pickford, and Alan Forrest, also a film player, today took out a marriage license, and announced they would be married in a Los Angeles church tomorrow night.

TRILBY DIVIDE
BUYS PROPERTY
AT HORNSILVER

The New Trilby Divide Mining company has taken over a group of claims in the Hornsilver district with splendid showings of commercial ore on the surface. The New Trilby company was organized for the purpose of redeeming and taking over the property of the Trilby Divide company which was about to be lost through judgment and execution. The Trilby Divide stockholders were given an opportunity to acquire the new shares upon the surrender of their old certificates and the payment of a premium of 1 cent per share. A sufficient amount was realized in this way to redeem the plant and property of the old company and perform the assessment work for last year. The old shares are still exchangeable upon the same basis, but it is announced that the offer of exchange will be withdrawn in a short time.

POISON GAS IS
NEXT ON LIST
FOR DECISION

(By Associated Press)
WASHINGTON, D. C., Jan. 6.—Consideration of submarine questions were concluded by the five powers' naval committee with the adoption of the final Root resolution declaring that submarine commanders, who, with or without orders from their government, violate existing international law on submarine warfare, will be guilty of piracy. The American delegation, through Mr. Root, thereupon brought forth a new proposal to prohibit the use of poison gas. It was said it has been received favorably, but decision went over until tomorrow.

The piracy resolution was widened in scope so its application will be not only to commanders of submarines which might violate recognized laws of war, but also commanders of other naval vessels of any character. The reason for this modification of the original Root proposal was not disclosed in the official announcement which carried the resolution as adopted.

OTHER PROPERTIES
SHIPPING BULLION

Two more mills in Tonopah have completed arrangements for bullion shipments which will swell the week's totals to almost \$300,000. The Tonopah Belmont Development company will forward tomorrow a shipment consisting of 50 bars of the precious metal weighing 95,100 ounces, with a value of \$108,620. At the same time the MacNamara mill will forward a lot of seven bars with an estimated value of \$14,000. The shipments represent the clean-ups from the respective mills for the last 15 days of December.

ARMY IS SENT
AFTER BANDITS
KILLING YANK

(By Associated Press)
MEXICO CITY, Mexico, Jan. 6.—The war department has ordered the pursuit of a band of 40 bandits who Wednesday night shot to death Timothy Costello of Pennsylvania, an American citizen, on his ranch near Texcoco, 15 miles northeast of Mexico City. James Kelly, a British subject, and partner of Costello, fled to safety through a hail of bullets.

NO ALLIANCE
FOR BRITISH
AND FRENCH

(By Associated Press)
CANNES, France, Jan. 6.—Premier Lloyd George has decided there can be no question at this time of a formal alliance between France and Great Britain, it is said on good authority, but has held out the prospect of a guarantee to aid France if she is again attacked, as in 1914, under certain conditions.

GREAT SUPPLY
WATER ASSURED
COMING MONTHS

The greatest supply of water for domestic and agricultural and cattle feeding purposes during a period of seven years will be available during the coming spring and summer. This statement was made today by M. P. Shephard, in charge of the pumping station at Rye Patch, which furnishes water to Tonopah. Not that there has ever been a shortage of water in Tonopah, but the supply for the rest of the year promises to be abundant. This is occasioned as a result of the recent heavy snowstorms, the watershed extending for a distance of 50 miles and reaching to the extreme head of Hunts canyon. "The hills and canyons and ravines are carrying a heavy burden of snow," remarked Mr. Shephard, who is a visitor to Tonopah today. "The rains that followed the fall of snow have packed it down, which is an assurance that the supply of water for all purposes will be greater than at any time during the past seven years."

NEWBERRY IS
TO ANSWER TO
OUSTER CHARGE

(By Associated Press)
WASHINGTON, D. C., Jan. 6.—Definite announcement that Senator Newberry of Michigan would address the senate on Monday to answer charges that he should be ousted, was made today by Chairman Spencer of the elections committee. It was said that President Harding is taking no hand in the fight.

FINE AND 90 DAYS
FOR STEALING DIME

(By Associated Press)
DETROIT, Mich., Jan. 6.—Convicted of stealing a dime from a newsboy, Oscar Yukman was sentenced yesterday to serve 90 days in the house of correction and to pay a fine of \$100.

JAPANESE
STATESMAN
DIES TODAY

(By Associated Press)
TOKIO, Jan. 6.—Marquis Shigenobu Okuma, Japan's octogenarian statesman, died at his home here today.

He was born in February, 1838, at Saga, one of the leading cities of Kyushu, the most southern of the three great islands of Japan. He was raised by an ideal father and mother and he began life under very favorable circumstances. His father, Nobuyasu Okuma, was one of the influential chieftains of Saga and was commander of the fortress at Nagasaki. The son entered a clan school where the sons of all clansmen were obliged to receive education in Chinese classics and especially to study a textbook treating of Bushido, the moral spirit of the samurai.

The statesman was a member of the second Matsukata ministry and in June, 1898, formed a cabinet of his own which lasted six months. Later he took up educational work and founded the famous Waseda university. When the Yamanote cabinet fell in 1914 Emperor Yoshihito summoned him to form the ministry which held office during the great European war.

It was under his administration that Japan herself entered the war on the side of the entire allies, contributing to the embarrassment of Germany by the capture of her Chinese possession of Kiao-Chow, and by aiding the entente powers financially and through the manufacture of munitions. It was also during his administration that the important Russo-Japanese convention of 1916 was arranged and signed.

Okuma was the great bridge between old and new Japan. His life work was devoted to reconciling the old and the new. While striving to maintain the dignity and nobility for which the samurai fought, he yet pushed Japan forward intelligently and materially to obtain for her the rank of a first class power by taking over the civilization of the west and making it an integral part of Nippon.

REASON GIVEN
FOR REVOKING
CITIZENSHIP

(By Associated Press)
LONDON, Jan. 6.—The British home secretary today issued in the form of a government paper a report on which Sir Edgar Speyer's naturalization was recently revoked. Among the allegations are a loan of \$5000 to a man named Ware for the benefit of the now non-existent Boston Journal; details of Sir Edgar's association with Karl Muck, former conductor of the Boston Symphony orchestra, and with John Koren; Sir Edgar's trafficking and communication with enemy subjects during the war, and his evasion of British censorship.

"The whole thing is neither more nor less than the culmination of years of political prosecution," said Sir Edgar Speyer in New York today. He said he and his family had sailed for the United States in May of 1915, life for them in England having "become intolerable."

NO MORE TIME GIVEN
WITHOUT AGREEMENT

(By Associated Press)
PARIS, Jan. 6.—The allied reparations commission has refused to extend the time limit on the January and February installment of the German reparations until it has received information requested in its note to that government on December 26.

FIGHTING IN
BELFAST NOT
PREVENTED

(By Associated Press)
BELFAST, Ireland, Jan. 6.—Despite the increase in the number of military and police patrolling the Belfast streets, fighting was renewed last night. A child and a man were wounded. A bomb was thrown but no damage resulted. Rival mobs clashed in Dale street and violent fighting ensued in which stones and revolvers were used. The police first dispersing the combatants.

PEOPLE FLEE
WHEN VOLCANO
GETS ACTIVE

(By Associated Press)
MEXICO CITY, Mexico, Jan. 6.—The volcano Popocatepetl, southeast of here, again began to show serious signs of activity yesterday afternoon. An explosion within the crater was heard, the detonation being audible for some distance and a great smoke column rose to a considerable height. Inhabitants of villages near the base of the mountain became panic-stricken and fled.

LAW IS GOOD
TO WOMEN IN
THIS COUNTRY

(By Associated Press)
LONDON, Jan. 6.—Mrs. Margaret Nevins, a well-known English social worker who recently visited the courts in New York and Massachusetts, told the Women's Freedom league that "in America the law is all on the side of the woman." She spoke sympathetically of American husbands who went to prison rather than pay alimony to deserting wives.

SOVIETS ARE
PRACTICALLY
RECOGNIZED

(By Associated Press)
CANNES, France, Jan. 6.—What is regarded by a majority of the delegates here as amounting to recognition of the soviet government of Russia was decided upon by the allied supreme council when the British proposal for an international financial and economic conference with participation of Russia and Germany was approved unanimously.

SHORTAGE OF
LARGE AMOUNT
CLOSES BANK

(By Associated Press)
ST. LOUIS, Mo., Jan. 6.—The Night and Day bank, with deposits of \$3,000,000, did not open for business today. State Bank Commissioner Hughes said his examiners have been auditing the books for several days, and found an apparent shortage of over \$100,000. O. A. Meislinger, the cashier, has not appeared at the bank since Wednesday, it was said.

TREATY IN SERIOUS
STRAITS BY ACTION
OF IRISH CABINETBETTS LEASES
BLOCK GROUND
GOLDEN EAGLE

In order that the Golden Eagle claim, which is held under lease by Benjamin Franklin Betts and associates, may receive thorough exploration within the time limits of the privileges granted by the Hudson Mining company, extending over a period of about 15 months, a sublease has been granted. The ground in question will be developed by J. W. Van Winkle, and embraces the south 250 feet of the north 500 feet.

Operations will be started immediately by Mr. Van Winkle on the ground controlled. It is stated that the surface showing is most encouraging, as is evidenced from a number of open cuts that have been driven. The ground leased starts about 300 feet north of the Betts working shaft, where such exceptionally high-grade ore is now being mined.

It is the intention of Betts and associates to shortly start development of the intervening 300 feet of ground in question between the main shaft and the point where Mr. Van Winkle will start operations.

LEASERS ON
FLORENCE ARE
IN GOOD ORE

Adamson and McAniff apparently are in the money in the Florence. These lessees have two feet of \$30 to \$400 ore and there is in sight a carload of \$100 to more than \$400 ore, says the Goldfield Tribune. They are working in the old Wheeler block on the intermediate level above the eighth of the Florence. The high-grade is at the southern end of the Wheeler slope and there is a good chance for the lessees to make a little fortune and possibly a big one, according to R. C. McCarthy, superintendent of the Florence.

The \$30 to \$400 assays are from two seams and there is a still richer seam running through these.

SALVATION OF
EUROPE LIES
IN OWN HANDS

(By Associated Press)
CANNES, France, Jan. 6.—Premier Lloyd George, addressing the opening session of the supreme council today, warned the allied powers that they could not look to any others but themselves to work out the economic rehabilitation of Europe. He appealed to the allies to set aside prejudices and work together to this end. The supreme council approved unanimously the calling of the international economic conference to be participated in by Germany and Russia.

(By Associated Press)
DUBLIN, Jan. 6.—It is officially announced that Eamon De Valera has resigned as president of the Irish republic.

De Valera opened the afternoon session of Dail Eireann by stating the split over the treaty was fundamental and irreconcilable. De Valera, in announcing his resignation to Dail Eireann, said the cabinet also had resigned. Before the afternoon session opened, Liam Blaise, of Cork, said the situation was extremely critical, and he feared civil strife might ensue for division of the country on the treaty.

De Valera told Dail Eireann he would offer himself for reelection, standing on the principles of 1916, and said he must have a cabinet which thought with him and he would demand that all resources be given him to defend the republic.

De Valera, after announcing his resignation of the presidency of the Irish republic, declared he was sick at heart, and that whatever happens he intended to return to private life. He spoke with great feeling and with tears in his eyes, when he protested that he had never been a party to any political trickery.

(By Associated Press)
LONDON, Jan. 6.—Dail Eireann has decided to vote tomorrow on ratification of the Anglo-Irish treaty, says a Central News dispatch from Dublin.

WATER ASSURED
FOR HYDRAULICS

So heavy has been the snowfall on the watersheds of the Toiyabe and Toiyabe mountain ranges during the past two weeks, there is ample assurance that water will be available in quantity during the coming season. The average precipitation on the mountains is better than four feet at the present time, although the heavy winds have denuded some spots, piling the snow above the treelines in the canyons. Judging the snowfall by that of former years, there will be pure water available for the hydraulics of the Round Mountain Mining company the coming season than has ever been known before. Accompanying the heavy snows in the upland sections, drenching rains in the valleys and on the flats make possible a record-breaking season for the ranchers and stockmen of northern Nye county.
